Dimmer Mini Universal LED Phas.an/abschnitt 1724 DM Composition of basic element, operating mode other, dimming leading edge, dimming trailing edge, load type universal, extension input, light value memory, mounting type flush-mounted, fastening type fastening with screw, material other, material quality other, halogen-free, nominal voltage 230 .. 230V, frequency 50 ... 60Hz, rated power 20 ... 210VA, connection type screw terminal, wire cross section 0.75 ... 4mm<sup>2</sup>, device depth 19.5mm, dimmer mini universal LED, rated voltage: AC 230 V ~, mains frequency: 50/ 60 Hz, power loss: approx. 2 W, standby power: approx. 0.3 W, device works according to the leading edge or trailing edge phase principle, operating mode display via LED, switch-on by soft start that protects the lamp, switch-on brightness and minimum brightness can be permanently saved, switch on with the last brightness setting or saved switch-on brightness, electronic short-circuit protection with permanent shutdown after 7 seconds at the latest en, electronic overtemperature protection, automatic or manual setting of the dimming principle suitable for the load, power expansion possible through power boosters (in combination with power boosters, do not connect LED or compact fluorescent lamps), operation without neutral conductor possible, contact type: e, connected load at 25 °C: incandescent lamps: 20 up to 210 W, HV halogen lamps: 20 to 210 W, HV LED lamps, dimmable: typically 3 to 50 W, compact fluorescent lamps, dimmable: typically 3 to 50 W, electronic transformers: 20 to 210 W, electronic transformers with LV LEDs: typically 20 to 210 W, inductive transformers: 20 to 210 VA, inductive transformers with LV LED: typically 20 to 50 VA, when operating in the LED trailing edge operating mode, the connected load for HV LED lamps and electronic transformers with LV LED, ohmic-capacitive: 20 to 210 W, ohmic-inductive (maximum 50% proportion of ohmic load): 20 to 300 VA, capacitive-inductive: not permitted, ohmic-inductive: 20 to 210 VA, ohmic and HV LED: typically 3 to 50 W, ohmic and compact fluorescent lamps: typically 3 to 50 W, connection of extensions possible: number: unlimited (extension insert 2-wire 1720 NE, non-illuminated installation button), 5 (extension insert 3-wire 1723 NE and rotary extension insert 3-wire 1733 DNE), total length of load line: maximum 100 m, total length of extension line: maximum 100 m, connection: screw terminals, 1 x 0.75 to 2.5 mm<sup>2</sup> or 2 x 0.75 to 1.5 mm<sup>2</sup> (solid), 1 x 1 to 4 mm<sup>2</sup> or 2 x 1 to 2.5 mm<sup>2</sup> (finely stranded without ferrule) and 1 x 1 to 2.5 mm<sup>2</sup> or 2 x 1 mm<sup>2</sup> (finely stranded with ferrule), ambient...

### YOUR ADVANTAGES

**WORLDWIDE TRADE**  
 Corporate video eibmarkt®

**99% CUSTOMER SATISFACTION**  
 > 500,000 customers worldwide

**DHL TRACK & TRACE**  
 Shipment tracking

**COMPLAINTS HANDLING**  
 Obliging and 100% safely

**25 YEARS OF EXPERIENCE**  
 In worldwide mail order

**ORDER LIVE CHAT**  
 With order history

**SHORT DELIVERY TIME**  
 Warehousing

**REFUND**  
 Within 14 days

**DATA PROTECTION**  
 Guarantee

\* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

\*\* Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

\*\*\* Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
