Small storage tank 5 liters ACK 5 O energy efficiency class A, energy efficiency class spectrum A to G, material of the boiler plastic, volume of the tank 5l, nominal power 2kW, connection voltage 230... 230V, frequency 50 Hz, design above table, temperature limitation, max. permissible operating pressure 0bar, height 390 mm, width 256 mm, depth 213 mm, nominal inner diameter of cold drinking water 1/2 inch (15), protection class (IP) IP24, energy efficiency of hot water 35%, tapping profile XXS, non-pressurized version, temperature setting range 35 °C - 85 °C with energy-saving and Frost protection position, connecting cable and plug, water connections metal G 1/2", safety temperature limiter with reset function. Danger! Application note: This article is a pressureless device (maximum permissible operating pressure = 0 bar). It can only be used with non-pressurized fittings (low-pressure fittings). Please note the difference between high pressure and low pressure fittings. The high-pressure faucet mixes the water inside the faucet. The low-pressure fitting is connected to a water tank (boiler) and has 3 connections. When the water is heated in the storage tank, it expands, which can lead to dripping in the fitting.

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
