Despite the high robustness and quality of the BEGA products, it is sometimes possible to damage or destroy the lamp glass due to extraordinary high mechanical loads. In this case, the high quality replacement glass 11232741 can replace the defective component. Due to the screw thread and the sealing ring supplied, a fast and complicated installation is possible. This way, the wall light can be easily repaired without having to replace the complete luminaire. Material: glass, screwed glass for 6410
