Housing empty E-DAT modul REG 1309426103-E shielded, suitable for round cables, connection unit unequipped for a single module with modular design for mounting on DIN rail TH35 according to DIN EN 60715, the width of 1TE enables the installation of up to 12 REGs in standard electrical distributors, when installed as a device of protection class I, the equipotential bonding takes place via an integrated equipotential bonding spring directly via the mounting rail, which is to be connected to the building equipotential bonding via appropriate contact terminals. The module is protected against direct contact by a cover. When installed in double-insulated distributors, protection class II remains. To do this, the equipotential bonding spring must be removed. Integrated dust protection flap (also available in colour), the following modules can be installed: E-DAT module, E-DAT module coupling 180°, UAE module, OpDAT module LC-D and ST as well as coax modules, Attention: not suitable for C6, Amodul

\* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

\*\* Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

\*\*\* Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
