Assembly mortar 300 T green cartridge packaging, content 300ml, The fischer assembly mortar GREEN 300 T is a 2-component injection system based on vinyl ester. The hybrid mortar has an environmental product declaration EPD from the Institute for Building and Environment and is produced at least half with renewable raw materials. Furthermore, the assembly mortar GREEN is classified according to the French VOC regulation in the best possible emission class A+ for volatile substances. Resin and hardener are only mixed and activated when pressed out of the static mixer. The cartridge can be squeezed out with a standard silicone squeeze gun. Opened cartridges can be reused with a new static mixer. With system components such as FIS A anchor rods, internal thread anchors and injection anchor sleeves for fastenings in concrete and masonry, the hybrid system offers many indoor and outdoor application options.
