Overload relay 18-25A 3RU2136-4DD0 adjustable current range 18 ... 25A, max CLASS 10, automatic reset function, thermal overload relay 18...25 A for motor protection Size S2, CLASS 10 Contactor attachment Main circuit: Screw Auxiliary circuit: Spring-loaded terminal Manual-automatic RESET SIRIUS 3RU2 thermal overload relay for current-dependent protection of consumers with normal starting against impermissibly high heating as a result of overload or phase failure. This series is particularly flexible and cost-effective. Worldwide approvals (eg IEC and UL/CSA) and use in potentially explosive applications (ATEX or IEC Ex) are a matter of course. The overload release can be supplied with different setting ranges. They are available with screw or spring-loaded connections for a quick, maintenance-free and vibration-proof connection, as well as for individual installation. The accessories are universally suitable for all sizes S00 to S3. Simple, efficient, always up-to-date - the SIRIUS modular system.

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
