Overload relay 47-57A 3RU2136-4QD0 Adjustable current range 47 ... 57A, max. rated operating voltage Ue 690V, mounting type direct attachment, connection type main circuit screw connection, number of auxiliary contacts as NC contact 1, number of auxiliary contacts as NO contact 1, number of auxiliary contacts as changeover contact 0, tripping class CLASS 10, automatic reset function, thermal overload relay 47...57 A for motor protection Size S2, CLASS 10 Contactor attachment Main circuit: Screw Auxiliary circuit: Spring-loaded terminal Manual-automatic RESET SIRIUS 3RU2 thermal overload relay for current-dependent protection of consumers with normal starting against impermissibly high heating as a result of overload or phase failure. This series is particularly flexible and cost-effective. Worldwide approvals (eg IEC and UL/CSA) and use in potentially explosive applications (ATEX or IEC Ex) are a matter of course. The overload release can be supplied with different setting ranges. They are available with screw or spring-loaded connections for a quick, maintenance-free and vibration-proof connection, as well as for individual installation. The accessories are universally suitable for all sizes S00 to S3. Simple, efficient, always up-to-date - the SIRIUS modular system.

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
