Bell transformer 230V 8VA 4-8-12V S. TS8/4-8-12SW Primary voltage 230V, Secondary voltage 1 4V, Secondary voltage 2 6V, Secondary voltage 3 8V, Secondary current 1 2A, Secondary current 2 1.3A, Secondary current 3 1A, Max. output power 8W, max. output current 2A, max. power loss 4W, type of transformer: standard bell transformer, suitable for series installation, length 65mm, width 35mm, height 85mm, width in modular units 2, short-circuit-proof, temperature protection, with on/off switch, conditionally short-circuit-proof bell transformers TS for supply with extra-low voltage (SELV). Suitable for loads that require a momentary supply, particularly doorbells and chimes. In addition to perfect insulation and separation between the primary and secondary circuits, the TS transformers have a thermal protection device integrated in the secondary part, which makes them resistant to short-circuit currents (conditionally short-circuit-proof). In addition, the TS8/SW series is equipped with a switch for controlling loads on the secondary output.

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
