Time counter 72x72mm 230VAC 7KT5604 type of mounting front mounting, analogue version, counting range 99999.99h, reset function without, number of characters 7, input voltage 230 ... 230V, type of voltage AC, frequency of the input voltage 60 ... 60Hz, type of drive quartz, width 67, 5mm, height 67.5mm, width in pitch units 2, installation depth 44mm, front panel width 72mm, front panel height 72mm, fastening up to max. wall thickness 3mm, protection class (IP) IP00, protection class (NEMA) other, timer 72x 72mm AC 230V 60Hz without terminal cover Time and pulse counter for front installation for the switch cabinet control and mechanical engineering. Time and pulse counters for the switch cabinet control and mechanical engineering, e.g. B. used in boilers, machine tools or compressors. The pulse counters count the switch-on frequency. The devices thus support the planning of preventive maintenance. Whether for infrastructure or for industrial requirements, Siemens offers time and pulse counters for all applications and every area of application. The main features of the time and pulse counters from Siemens are: 1. Convenient and simple control cabinet assembly and connection technology. 2. Additional accessories available for panel mounting. 3. Increases system availability by counting the switching frequency. 4. Optimum technology for reliable time and pulse counting for your safety - only from Siemens. For the safe, efficient electrical infrastructure in buildings and industry, Siemens offers an integrated portfolio of protective switching, measuring and monitoring devices, distribution systems, switches and socket outlets.
