LED wall ceiling light 3000K 581637.004 Energy efficiency class of the supplied replaceable light source A+, Highest energy efficiency class of the replaceable light source A+, Lowest energy efficiency class of the replaceable light source A+, Energy efficiency class range A++ to E, Suitable for wall mounting, Suitable for ceiling mounting, Suitable for surface mounting, Light source LED not Interchangeable, With bulb, Suitable for number of bulbs 1, Other socket, Housing material aluminium, Housing color silver, Cover material opal glass, Grid design without, Type of voltage AC, Nominal voltage 220 ... 240V, Control gear LED control gear current-controlled, With control gear, without dimming function, light distributor without, symmetrical light distribution, beam angle unshielded/diffuse, light emission direct, rated service life L70/B50 at 25 °C 50000h, degree of protection (IP) IP65, degree of protection (NEMA) other, impact resistance IK05, protection class I, rated ambient temperature according to IEC62722-2-1 -20 ... 41°C, glow wire test according to IEC 60695-2-11 960 °C - 30 s, suitable for lamp power 13 ... 13W, max. system power 13W, rated luminous flux according to IEC 62722-2-1 630lm, light color white, color temperature 3000 ... 3000K, color rendering index CRI 80-89, luminous efficacy of luminaire 49lm/W, width 257mm, height/depth 81mm, length 257mm, type of wiring termination, number of positions 3, conductor cross-section 2.5mm², Connection type plug-in terminal, the flat design offers universal applicability with either a round or square glass cover. The cover, made of crystal glass with a frosted interior, also shines during the day. Use of smart, cost-effective LED modules for mains voltage with high LED system light output for energy-saving operation. Longevity thanks to the use of high-quality materials such as aluminium, crystal glass and stainless steel as well as durable powder coating. Coordination of the appearance of the environment with the surrounding lighting by selecting the light color 830 or 840. The high degree of protection IP 65 allows maintenance-free, trouble-free LED operation. Also available in a safety lighting version. Housing made of corrosion-resistant die-cast aluminum for outdoor use, powder-coated. Cover with crystal glass, frosted on the inside. Screwless installation of the cover with snap lock. Fastening outside the sealed area with bore tolerance compensation. Light source (mains voltage LED module) included. Standard with membrane valve to avoid condensation. With second cable inlet for mains transmission.
