15-16 days* (CHN)

Analog actuator 4-fold, REG AA/S 4.1.2 bus system KNX, other bus systems without, mounting type REG, width in modular units 4, design base module, with LED display, with bus coupling, number of outputs 4, output current 0 ... 20mA, Output voltage 0 ... 10V, degree of protection (IP) IP20, min. depth of the device box 64.5mm, the analogue actuator converts telegrams received via KNX into voltage (0...10V) or current signals (0(4)...20mA). These analogue output signals are used to control control processes. For example, heating, air conditioning, ventilation technology devices can be controlled based on the information received via the bus. The analog actuator has 4 channels and a housing for DIN rail mounting. The ABB i-bus Tool can be used for detailed diagnostics and improved commissioning.

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
