 15-16 days* (CHN)

Split Unit Gateway SUG/U 1.1 bus system KNX, other bus systems without, IR interface version, flush-mounted installation, with LED display, updateable, operating voltage 30V, other protocol, IR interface, protection class (IP) IP20, the split unit gateway forms the Interface between the KNX system and air conditioning units from many manufacturers, so-called split units. The device converts the KNX telegrams into infrared commands and sends them to the split unit. The transmitter unit of the enclosed cable is glued directly onto the receiver unit of the split unit. The split unit then no longer receives the commands from a remote control, but can be operated via any KNX sensors or via a visualization. The device is commissioned with the ETS. A free ETS APP is available to select the model of the split unit. No auxiliary voltage is necessary.

YOUR ADVANTAGES

 **WORLDWIDE TRADE**
Corporate video eibmarkt®

 **COMPLAINTS HANDLING**
Obliging and 100% safely

 **SHORT DELIVERY TIME**
Warehousing

 **99% CUSTOMER SATISFACTION**
> 500,000 customers worldwide

 **25 YEARS OF EXPERIENCE**
In worldwide mail order

 **REFUND**
Within 14 days

 **DHL TRACK & TRACE**
Shipment tracking

 **ORDER LIVE CHAT**

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
