WMS actuator 24V UP 2020361 Type of installation flush-mounted, protection class (IP) IP20, color other, WMS radio receiver for sun protection drives and windows for installation in a flush-mounted junction box (80x80mm) or in a 60mm deep device box. For simple and inexpensive retrofitting. All available product types, with the appropriate logic parameters and all settings such as automatic functions, comfort functions, scenes, time switching points, etc. are stored directly in the actuator. It receives commands/weather data and sends them on (intelligent routing). An optical signal on the WMS hand-held and wall-mounted transmitters and the WMS central unit reports back the executed commands that were triggered based on measured values or button presses (bidirectional radio technology). Recall and save comfort positions by pressing up and down simultaneously. Commissioning via WMS hand-held and wall-mounted transmitters, WMS central unit or conveniently via the free WMS studio pro software.
