15-16 days* (CHN)

Surface-mounted ventilation button Open/Close/Stop WSK 103 0101 Composition of basic element with complete housing, single button design, push button/jog button type of operation, surface mounting type, screw mounting type, material plastic, color white, other imprint, device width 50mm, device height 50mm, device depth 44mm, ventilation button for the manual opening or closing of motorized windows, flaps or light domes. The signal from the ventilation button is of secondary importance in RWA control panels, ie signals from smoke detectors, manual control devices and external fire alarm systems have priority regardless of the operating status triggered by the ventilation button. The ventilation button must be connected to all WindowMaster ventilation and RWA control panels. Button without mechanical locking. For surface mounting.

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
