They ensure protection of single-phase circuits against overload and short-circuit currents, protection against sinusoidal alternating currents and pulsating currents with a smooth DC residual current component of up to 6 mA to earth. As well as fault protection (protection against indirect contact), additional protection (with I n less than or equal to 30 mA) and fire protection (with I n less than or equal to 300 mA). They meet the product standards IEC/EN 61009-1 (VDE 0664-20), IEC/EN 61009-2-1 (VDE 0664-21). Areas of application are household, commercial and industrial applications. The extensive range of accessories offers you everything you need for your installation tasks. Numerous approvals make the DS201 fit for worldwide use. Optimum compromise between security and service continuity thanks to the interference immunity with surge current resistance (surge current shape 8/20 s) = 3,000 A against unwanted tripping and 10 ms short-time delay. Rated switching capacity according to IEC/EN 61009 Icn = 6 kA. RCBO DS201 A Type A AP-R is 1-pole protected (LS), 2-pole switching.
