Module accessories 24 volts 3VA9387-0TB50 Type of accessories Communication and measuring function, 24 volt module accessories for: 3VA2 400/630/1000 Communication for molded case circuit breakers 3VA. The 3VA molded case circuit breakers offer an innovative and modern communication concept. The basis of this concept is the COM100 or COM800 data concentrator, which can connect one or up to eight molded case circuit breakers to various bus systems. This means that system-relevant data such as energy data and diagnostic data can be transferred to a higher-level automation system and processed. These accessory components are characterized above all by: 1. Integrated measuring function in ETU-s of the 8 series enable energy data acquisition without an additional external measuring transformer. 2. The COM800 data concentrator offers a cost-optimized communication interface for up to 8 3VA2 molded case circuit breakers. 3. Integrated Modbus TCP interface (COM800/COM100). 3. Expansion modules for the COM800/COM100 data concentrator available for connection to PROFINET, PROFIBUS, Modbus RTU. 4. Universal S0 interface for outputting energy pulses. 6. Display the status and measured values of up to 8 molded case circuit breakers in the control cabinet door using DSP800. Siemens offers a comprehensive portfolio of protection, switching, measuring and monitoring devices, distribution systems as well as switches and sockets for the safe, efficient electrical infrastructure in buildings and industry.
