The decisive advantages: high dimensional stability and accuracy. They can take a powerful shove. This affects neither the outer form nor the inner function. The good resistance to acids and alkalis means that it can also be used where aggressive cleaning agents are found. High dielectric strength and leakage current resistance Resistant to weather and aging A closed housing base with 77 mm ground clearance prevents water ingress. The attachment sockets can be changed at any time without any problems. LS and FI switches are immediately accessible after opening the cover. Additional security offers the possibility to attach a padlock. An additional benefit that should not be underestimated: space-saving storage thanks to stackability.
