Lower part IU=32 3P HR E4.2WFPIu32003pHRHR Suitable for number of poles 4, The Emax2 circuit breaker series includes 4 sizes for the realization of switchgear with compact dimensions and high performance. Busbars can therefore be designed with optimized lengths and cross sections. High short-term currents and efficient protection functions ensure comprehensive selectivity in all applications. The Ekip Touch protection releases are equipped with a large touchscreen color display and can be operated intuitively and safely. With Ekip Connect, programming and querying Ekip units is also possible via tablet computer, smartphone or laptop. All Emax2 circuit breakers can be equipped with communication modules for Modbus, Modbus TCP, Profibus, Profinet, Devicenet and Ethernet IP. The integrated IEC 61850 communication module allows connection to automation systems and intelligent distribution networks (smart grid). The integrated network analyzer monitors the quality of the power supply in real time. Emax2 E4.2 with rated currents of up to 4,000 A and a breaking capacity of up to 100 kA for 1 s is optimized for use in switchgear panels with a width of 600 mm.

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
