Sensor,ind.,M8x1,connector DC,pnp,no,sn=3mm,nb IN080170 width of the sensor 8mm, height of the sensor 50mm, length of the sensor 60mm, mechanical installation conditions for the sensor not flush, switching distance 3mm, version of the switching function make contact, Design of the switching output PNP, design of the electrical connection M8 plug connector, housing design cylinder, thread, SIL according to IEC 61508 without, max. output current at the safe output 200mA, supply voltage 10 ... 30V, rated control supply voltage U_s at DC 10 ... 30V, type of voltage DC, switching frequency 1000Hz, housing material metal, inductive proximity switches are non-contact sensors. They detect all conductive metals, regardless of whether they are moving or not. The achievable switching distance of the devices depends on the object material and its dimensions. The vibration-resistant sensors can be approached from the side or from the front. Inductive proximity switches are used for presence detection (e.g. goods carriers), positioning (e.g. oven flaps), counting (e.g. nuts/screws), speed detection (e.g. on gear wheels), on conveyor systems (e.g. hose feeds) or distance measurements (e.g. pressing control) of metallic objects.

YOUR ADVANTAGES

WORLDWIDE TRADE
Corporate video eibmarkt®

99% CUSTOMER SATISFACTION
> 500,000 customers worldwide

DHL TRACK & TRACE
Shipment tracking

COMPLAINTS HANDLING
Obliging and 100% safely

25 YEARS OF EXPERIENCE
In worldwide mail order

ORDER LIVE CHAT

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
