Mounting kit 900x250mm 8GK4051-6KK11 Height 900mm, width 250mm, depth 210mm, number of DIN rails 6, number of pitch units per DIN rail 12, type of cover with cutout, with cover, ALPHA 160/400 DIN, quick kit for installing built-in devices with row spacing 150mm, H=900 W=250 The distribution boards ALPHA ? a complete system of wall and free-standing distributors for the installation of devices up to 1250 A. ALPHA - the system concept counts. The ALPHA distribution systems are tested according to IEC 61439 and are based on a common platform structure with extensive versions up to 1250 A. Due to the platform structure and the modular design, the device-specific assembly kits can be integrated into different distribution board variants. This makes planning and assembly easier. The assembly is carried out individually and project-specifically. The SIMARIS configuration software provides support from planning through to documentation of the ALPHA power distribution boards and distribution boards. The Siemens ALPHA distribution boards are primarily characterized by: 1. The mounting kits consist of device-specific support plates and field covers for quick and easy installation. 2. Quick-assembly kits are pre-assembled and already include the longitudinal bars. Thanks to the quick-locking technology, these can be snapped into the unequipped cabinets of the appropriate height in a time-saving manner. offers a consistent portfolio of protection, switching, measuring and monitoring devices, distribution boards and switches for safe, efficient electrical infrastructure in buildings and industry and sockets.
