CombiController V20 three-pole with NPE+FS V20-3+NPE+FS-280 Rated discharge current (8/20) 20kA, rated voltage AC 230V, maximum continuous voltage AC 280V, mounting type DIN rail TH35, size 4 TE, protection level 1.3kV, max. conductor cross-section rigid (single/stranded) 35mm<sup>2</sup>, max. conductor cross-section, flexible (finely stranded) 35mm<sup>2</sup>, protection level LN 1.3kV, protection level N-PE 1.3kV, with remote signaling contact, optical signaling on the device, test class type 2, degree of protection (IP) IP20. Der V20 surge arrester made of halogen-free plastic is suitable for surge protection potential equalization according to VDE 0100-443 (IEC 60364-4-44). The modular, pluggable arresters are characterized by a dynamic disconnect device and an optical status display. The FS with NPE variant offers a heavy-duty spark gap between the neutral and protective conductors as well as a potential-free changeover contact that enables remote signaling. The SurgeController is particularly suitable for potential equalization in main and sub-distributions, depending on the type in the areas of TN and TT networks. Thanks to the high-performance varistors, the discharge capacity is up to 40 kA (8/20) per pole. The vibration-proof latching and the voltage and type coding ensure safety and avoid mixing up upper and lower parts. The wedge-shaped design of the contacts makes it easy to insert and even easier to remove the upper parts. Additional technical product information can be called up quickly and easily using the QR code on the rating plate using mobile devices.

### YOUR ADVANTAGES

**WORLDWIDE TRADE**  
Corporate video eibmarkt®

**99% CUSTOMER SATISFACTION**  
> 500,000 customers worldwide

**DHL TRACK & TRACE**  
Shipment tracking

**COMPLAINTS HANDLING**  
Obliging and 100% safely

**25 YEARS OF EXPERIENCE**  
In worldwide mail order

**ORDER LIVE CHAT**  
With order history

**SHORT DELIVERY TIME**  
Warehousing

**REFUND**  
Within 14 days

**DATA PROTECTION**  
Guarantee
