(H)05V-K 0.5 ge Ri.100 wire, finely stranded Conductor material copper, nominal conductor cross-section 0.5mm², conductor class class 5 = finely stranded, number of cores 1, core insulation material polyvinyl chloride (PVC), core -Color yellow, jacket material without, flame-retardant no, outer diameter approx. 2.15mm, max. Outside cable temperature during assembly/handling 5 ... 70°C, perm. External cable temperature after installation without vibration -40 ... 70°C, nominal voltage U0 300V, min. permissible bending radius, stationary use/fixed installation 9mm, nominal voltage U 500V, according to VDE 0281. For protected installation in devices and in and on lights. Also for laying in pipes on and under plaster, but only for signal systems. In and on electronic equipment in high-voltage systems for the purpose of measuring, controlling and regulating. Max. operating temperature 70 °C. Copper base: EUR 150 per 100 kg

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
