Terminal D4/6 LNTTP1 gn-ge Connectable conductor cross-section fine-stranded without ferrule 0.2 ... 4mm², Connectable conductor cross-section fine-stranded with ferrule 0.2 ... 4mm², Connectable conductor cross-section solid 0.2 ... 4mm², rated current In 30A, rated voltage 400V, electrical connection version 1 screw connection, electrical connection version 2 screw connection, connection position on the side, number of potentials 3, mounting type DIN rail TH35, width/grid dimension 17.8mm, height with lowest mounting type 51.5mm, length 87mm, end plate required, basic color gray, With PE function, With N isolating slide, N function possible, Installation terminals with screw connection from the Solution series are available in widths of 6 and as a block of three in 17.8 mm. They offer an ideal solution for distribution cabinets in public buildings and meet the wiring and connection requirements of installations designed in accordance with DIN VDE 0100 or DIN VDE 0108. Thanks to the compact design and multi-level terminal blocks, you save space in your control cabinets. ABB's screw connection technology is designed to prevent connections from loosening due to vibration, shock or even accidental pulling on the cable. Various configurations of our installation clamps enable the distribution of pass-through neutral, neutral disconnect and protective conductor circuits in a compact format. The closed multiple circuit solution allows up to 9 circuits to be combined on a single terminal block. The various installation terminals with screw connections cover a connection requirement of 0.2 - 4 mm².
