Blind cover strip 8GK9910-0KK00 Material plastic, surface painted, color gray, RAL number 7035, width 216mm, ALPHA DIN, cover strip The ALPHA installation distributor - a complete system of wall and floor-standing distributors for installing devices up to 1250 A. ALPHA - the system idea counts. The ALPHA distribution systems are tested according to IEC 61439 and are based on a common platform structure with extensive versions up to 1250 A. Due to the platform structure and modular design, the device-specific installation kits can be integrated into various distribution variants. This makes planning and assembly easier. The equipment is individual and project-specific. The SIMARIS configuration configuration software supports everything from planning to documentation of the energy distributors and ALPHA installation distributors. Siemens offers a comprehensive portfolio of protection, switching, measuring and monitoring devices, distribution systems as well as switches and sockets for the safe, efficient electrical infrastructure in buildings and industry.

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
