Power booster for Uni.Dimmer LUD12-230V Mounting type REG, material plastic, material quality thermoplastic, halogen-free, surface other, surface design not applicable, color blue, load type universal, connected load 300 ... 400W, nominal voltage 230V, power booster for universal dimmer switch . Power MOSFET up to 400W. Standby loss only 0.1 watts. The load type of a power booster can deviate from the load type of the universal dimmer switch in the power increase circuit with additional lights. This makes it possible to mix L loads and C loads. This setting must match the actual installation, otherwise the electronics could be destroyed!

* Note on delivery time: Day = Monday to Friday, no public holiday in Bavaria or Saxony. Goods are also delivered on Saturdays (DHL).

** Payment methods may vary from country to country. All prices plus shipping and excluding customs duties or other additional costs (import sales tax) for deliveries outside the EU.

*** Savings compared to RRP = the manufacturer's recommended retail price. RRP is the price recommended to retailers by the manufacturer, importer or wholesaler as a resale price to the customer. The RRP is also referred to as the list price and is defined as the highest possible price that a buyer would pay for a specific product before any discounts (Source of gross list prices: Germany).
