By briefly or longer pressing the light button, you can choose between two independently adjustable time ranges. This enables individually configurable short-term / long-term switching in a range from 0.25 to 150 minutes. Pressing the light button again switches off the consumers immediately. Two operating modes enable the long-term switching to be blocked. Due to its small installation dimensions, it can also be installed in switch boxes, eg behind a conventional button, and is therefore also suitable for old building renovations.
